

# WorkForce WF-2010W

DATASHEET / BROCHURE

The ideal single-function printer for small offices, which features Wi-Fi and Ethernet connectivity and individual XL inks

This single-function printer has a compact design with a small footprint. It can be placed almost anywhere within a small office or home office environment, and is robust and durable for important business documents.

The WorkForce WF-2010W uses Epson's fast drying DURABrite Ultra Ink for professional-quality business documents and means that prints are water, smudge and highlighter resistant. Cartridges are also available in XL size, helping to save further on costs, as users can print up to 2.5x more pages\*1.

This printer also has flexible connectivity options, as users can connect the printer to their office network via Wi-Fi or Ethernet. With automatic Wi-Fi set-up, users don't need to know their network settings or connect with a USB cable during set up, as the printer automatically finds the relevant connection settings in order to configure itself\*2.

The WorkForce WF-2010W comes with a robust 100-sheet rear paper tray, providing media flexibility for a variety of paper.
