

ergotron[®]

moving you forward

Interactive Arm

- Patented Constant Force™ technology enables light-touch adjustments
- The revolutionary design allows interaction with your TV by moving the screen to where you want it when watching movies, gaming, exercising and more
- Provides smooth, continuous vertical and horizontal movement of the TV/display in all directions
- Gravity pivot enables tilting capabilities without the need of knobs or levers
- Improves ergonomic viewing for TVs/displays mounted high on the wall
- Constructed from polished aluminum with black trim for maximum strength and bold aesthetics
- Tilt and pan for maximum viewing flexibility
- Cable management clips on the underside of the arm route and hide wires
- Passes Ergotron's 10,000-cycle motion test, which ensures years of trouble-free height adjustment

LIFT, SWING OR TURN YOUR LARGE DISPLAY OR TV
IN ANY DIRECTION!

Accommodate the active TV positioning needs of today and tomorrow. Lift, swing or turn your display in any direction! Features up to 20 inches (51 cm) of vertical adjustment and 20.75 inches (52,7 cm) of motion adjustment to either side.

Now anyone can effortlessly move their TV into multiple positions with only a light touch. Your screen will seemingly float on air, being easily adjusted between standing and seated heights. No more awkward viewing angles and sore necks.

Interactive Arm

DEPENDABLE TECHNOLOGY:

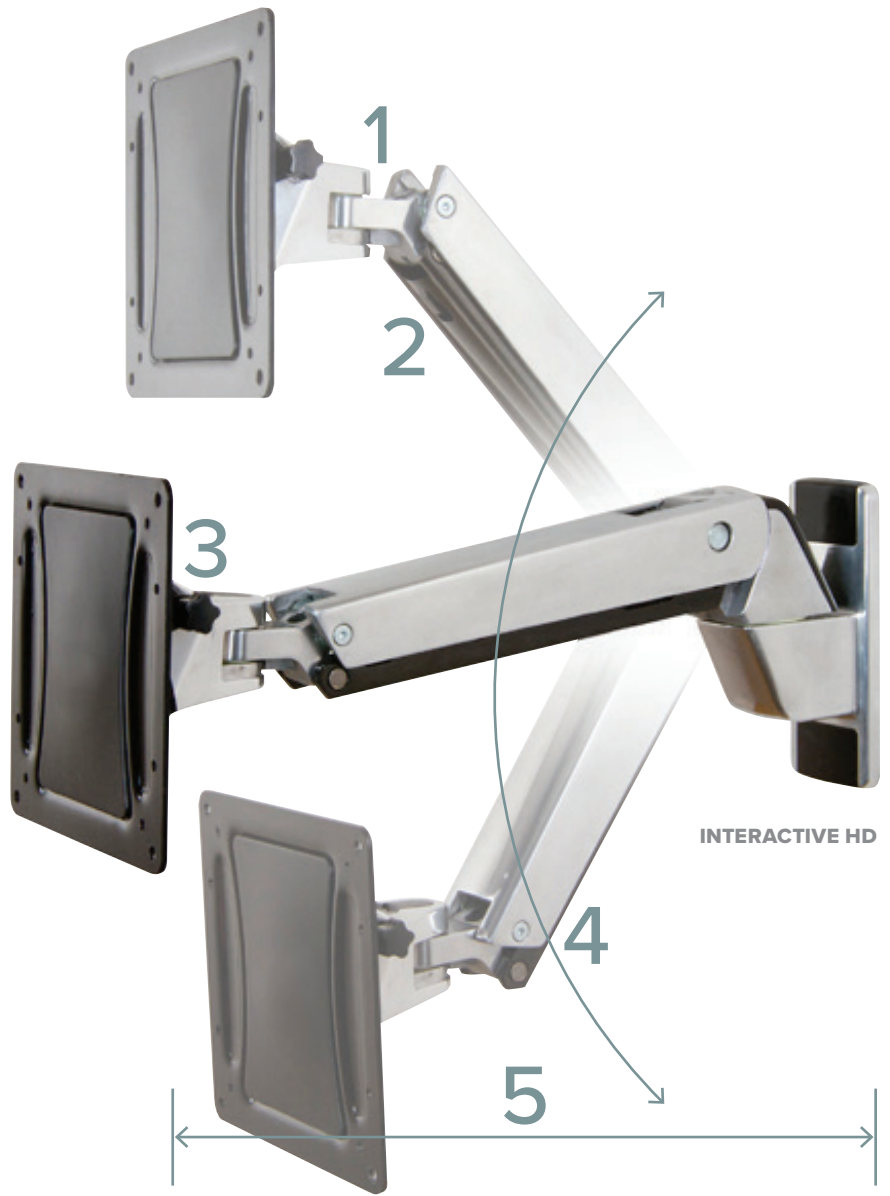

- 1 Patented Constant Force™ technology enables light-touch adjustments
- 2 Cable management clips on the underside of the mount arm route and hide wires
- 3 To fix the tilt position of the display in place, use the lock-down knob on the gravity pivot
- 4 Provides smooth, continuous vertical and horizontal movement of the TV/display in all directions
- 5 Extends 24" (61 cm) from wall and can be fully retracted to 5.5" (14 cm) when not in use

Level display at any position with +/- 5° of post-installation rotation

Includes complete hardware kit
