

## VEHICLE MOUNT COMPUTERS

# MOTOROLA 8585 / 8595

The 8585 and 8595 are the latest rugged vehicle mount computers designed and built for the tough demands of such environments as warehouses, ports, manufacturing plants and airports.

These rugged vehicle mount computers are compact and still provide full PC functionality with a Windows® XP or Windows® 7 operating system. Thus, the 8585 and 8595 ensure your workers are equipped with the tools they need to get the job done efficiently and effectively.

### COMPACT DESIGN

The 8585 and 8595 take up very little space. Their thin design makes it simple to mount wherever space is available in your vehicle. Once mounted, the compact dimensions of the 8585 and 8595 ensure your workers have access to their computer when needed without it getting in the way while performing other tasks.

### THE LATEST IN MOBILE TECHNOLOGY

Built with the Intel Atom® Single Core processor or the AMD Dual Core processor, the 8585 and 8595 consume minimal power, but still operate quickly due to their 1.x GHz processor speed.

### FAST AND RELIABLE COMMUNICATION

Even in demanding WLAN networks, the 8585 and 8595 ensure that you are always connected with the rest of the team. Featuring an integrated diversity-antenna space diversity and 802.11 a/b/g/n WLAN, the 8585 and 8595 provide reliable communication and fast throughput.

### EXTREME RUGGEDNESS

The 8585 and 8595 have been tested on strict Standards for shock and vibration. Their IP66 rating means they are protected against vibration, dust and other impacts. Whether mounted to non-suspension vehicles or machines with substantial imbalances, the 8585 and 8595 will keep providing workers the support they need.
