The Sandberg UV Wireless 10W USB is your new form of defence against viruses and bacteria on mobile phones, earbuds, car keys, spectacles, jewellery, etc. The construction of the UV light source in the box ensures 360° coverage of the devices by effective UV light. You can also charge your mobile phone wirelessly using the built-in Qi-compatible wireless charger in the lid.

The safety switch in the lid will switch off the UV light if the box is unintentionally opened during use. You can choose between 2 different disinfection programmes: 1 minute (fast) or 5 minutes (deep).

The box also features an optional fragrance aroma function.
