Pro Trekker 650 AW

Pro Trekker 450 AW

Lens Trekker 600 AW III

The Ultimate, Big-Glass Expedition Pack

Set out with the ultimate, big-glass expedition pack, built to provide long-wearing comfort and large capacity.

- Feedback from Trekker-loving pros and enthusiasts helped us improve our premium suspension system by adding **increased adjustability and airflow** to this pack.
- Our **ActivLift System™** harness is constructed to mimic the natural "S" curve of the back, transfer more weight from waist to hips via a metal wire frame, make it easy to adjust the length to your torso, and include airflow channels to improve breathability.
- Protect your valuable glass and gear with a built-in All Weather AW Cover™ and **durable Cordura®** base.
- The Pro Trekker 650 AW and 450 AW are high-performance solutions that include our patent-pending **MaxFit System™** of dividers and are built for serious outdoor and adventure photographers.
- The Lens Trekker 600 AW III is a robust option for photographers that carry **big glass** for nature, wildlife and sports shoots.

Materials: 630D high-density nylon Oxford, 1000D Cordura® base, Duraflex® D-rings
