

## HyperX Cloud Alpha S - Gaming Headset (Black) (4P5L2AA)

**Evolved with surround sound and adjustable bass.**

The HyperX Cloud Alpha™ S builds upon the groundbreaking Cloud Alpha and features HyperX virtual 7.1[1] surround sound. With the included audio control mixer, you can activate the surround sound and adjust the game audio and chat balance without having to go into any menus. Bass adjustment sliders have been added to the ear cups so you can personalize your audio. The Cloud Alpha S still features the dual-chamber driver system which reduces distortion and

### **HyperX 7.1. surround sound[1]**

Tuned by HyperX and tested by gamers to ensure that players get enhanced in-game audio. NGENUITY auto-detects supported games and selects the optimized surround sound profile to improve your experience on PC.

### **Bass adjustment sliders to personalize your sound**

Select from 3 levels of bass with these convenient sliders on the ear cups. Fully open them for maximum bass or close them to reduce the bass levels.

### **HyperX Dual Chamber Drivers**

Separation of bass frequencies from the mids and highs allows them to be tuned separately to provide more distinction between sounds and minimizes distortion.
