

Developed for photo shops and photographers that want to print high-quality photos and expand their print business with a wide range of formats.

The SureLab SL-D800 is a commercial photo production printer, designed for photo shops and professional photographers who want to print high quality photos and expand their existing photo printing business with associated products. It has the flexibility to print whatever your customers want, on a wide range of sizes, on glossy, lustre and matte paper, delivering outstanding results.

Flexibility

The SL-D800 has been developed with media flexibility in mind; in order to improve users' scope of business. The supported print lengths range from 50-1000mm, on roll media widths of 89mm, 102mm, 127mm, 152mm, 203mm and 210mm. It also supports glossy, lustre and paper-based matte media.

Impressive speed

It has a production speed of 360 pph (15x10cm) at standard quality with a wide colour gamut, deep blacks and the smooth gradation of a 6-colour printer with the superior gloss level of a dye-based printer.

Durability

The SL-D800 has been built to last and ensures that users keep working efficiently for years to come¹. It benefits from a rigid, sturdy print tray, improved spindle design and an intuitive paper change.

Complete solution

As well as the printer, Epson offers inks, papers and software; all tested to work perfectly together.
